

Rate Adjustments

Cigna Medicare Supplement Insurance

Due to changes in Medicare and claim costs, Cigna Health and Life Insurance Company, Cigna National Health Insurance Company and Loyal American Life Insurance Company will be implementing a rate adjustment on Medicare Supplement insurance policies in the states listed on the following page.

Updated Outlines of Coverage will be available on CignaForBrokers and from our Supply Department approximately seven days before the effective date. Please use the rates in effect at the time of the application sign date, not the rates that will be in effect on the requested effective date of the policy.

For new business, the rate adjustment will apply to applications with a sign date on or after the rate adjustment effective date. For example, if a rate adjustment is effective 11/1/2022, an application with a sign date of 11/1/2022 or later would receive the new rate.

Current rates will be used for all new business applications signed prior to the rate adjustment effective date and must be received in our office within 10 days. For example, if an increase is effective 11/1/2022, an application would need to be signed by 10/31/2022 and received in our office by 11/10/2022 to get the current rate.

Current customers will not receive an adjustment until their policy has been in-force for 12 months.

For example: a policy with a coverage effective date of 11/1/2022 will not receive an adjustment until 11/1/2023. Subsequent adjustments on Modernized plans, if applicable, will not be applied sooner than 10 months after the previous adjustment, unless state requirements differ.

In some instances, policyholders may receive a higher increase than the percentages listed due to one or more of the following circumstances:

- On attained age plans, any attained age increase that was deferred on the preceding anniversary will be taken with this increase.
- A policyholder who did not get last year's increase due to the timing of premium due dates or state approvals may get both years' increases together.

For EXPRESS APP users — our rate quoting, and application software will automatically be updated with the new rates. Please make sure you are quoting the correct rate based on the sign date of the application, not the effective date of the policy. The new rates will automatically be used for any quotes on or after the rate adjustment effective date.
